A.—Sri M. N. NAGHNOOR (Deputy Minister for Public Works).—Different alignments proposed have been examined in detail and it has been found that the alignment as approved by the Government of India is the most suitable one. This alignment will however be slightly moved to the West of Survey Nos. 122 and 123 so that it does not come in the way of the location of the Tobacco Research Station building proper. Only the proposed Tobacco Farm will get located on either side of the road instead of on one side of the road.

Thus, the question of changing the alignment does not arise.

Sri B. G. KHOT.—May I know the number of alignments that were proposed in this connection ?

†Sri M. N. NAGHNOOR.—Sir, four alignments were proposed and we have finalised all and instructions have been issued to go ahead with the work.

Sri B. G. KHOT.—What is the difficulty in not setting aside the road?

Sri M. N. MAGHNOOR.—Sir, I know that the anxiety of the Member is that the tobacco research station should not be disturbed. This proposal is not going to disturb it.

Sri B. G. KHOT.—Is it not going in the middle of it ?

†Sri H. K. VEERANNA GOWDH (Minister for Public Works).— No. After we received instruction from the Centre the alignment is pushed to a side. The building will not be affected but the farm will come on both sides of the road. The Station will be in tact. The Government of India engineer came and inspected all the four alignments and he has selected the one that is under progress. He says, it is the best one and we cannot help it.

This is under examination in the Revenue Department.

Sri U. M. MADAPPA.—It is seen that these records are pending from four months in the Revenue Secretariat. May I know the action taken ?

†Sri H. S. RUDRAPPA.—The Revenue Secretary has written again for the clarification of this order, corresponding with the Forest Department and the Deputy Commissioner.
